

Photosynthesis

Mark scheme

1. (a) (i) 2

both correct = 2 marks
 one correct = 1 mark
 extra line from a statement cancels the mark

(ii) 1st space: carbon dioxide 1
 allow CO₂ (ignore superscript)
 do **not** allow CO alone

2nd space: glucose / sugar / starch / carbohydrate 1

- (b) (i) any **one** from:
- move lamp or change distance between lamp and plant
ignore measure the distance
 - change wattage / power of (light) bulb
do not accept just "change bulb"
 - change voltage / power supply to the (light) bulb
 - change the number of lamps
 - put translucent material between lamp and plant 1
accept examples, eg tracing paper / filters
do not accept coloured filters

(ii) rises 1
 levels off 1
ignore numbers

- (iii) idea that it levels off
or does not increase at all light intensities
or it only increases to a certain amount 1
answers should relate to photosynthesis and not to bubbling

[8]

2. (a) 6 6 6 1
all required
accept a '6n 6 n n 6n' version of the balanced equation provided it is correct in every detail
- (b) any **two** of 2
- (presence of) chlorophyll **or** (amount of) chloroplasts
accept green leaves (or other green parts)
 - (sufficient) light (intensity)
 - (light) of a suitable wavelength
any light other than green light
do not credit Sun's energy or sunshine or Sun
- (c) guard cells 2
 any **two** of
- * control by osmosis
 - * the movement of gases
*accept movement of carbon dioxide **or** oxygen **or** water vapour beware movement of CO₂ out*
accept a diagram or description
 - * through the stoma
- palisade cells** 2
 any **two** of
- * near the upper surface
 - * contain (a great) many **or** more chloroplasts
 - * (so) contain the most chlorophyll
- (d) any three of 3
- * for respiration
 - * conversion to (insoluble) starch
- or** to food store **or** to (other) carbohydrates
 * (conversion to) sucrose **or** to food store **or** to (other) carbohydrates
- or** polysaccharides
*do not credit just to grow **or** live*
or survive
accept conversion to food store
or to (other) carbohydrates once only
- * (conversion to) lipids **or** fats **or** oils
 - * (conversion to) amino acids **or** (plant) proteins **or** auxins **or** (plant) hormones **or** enzymes
