

# Help your children explore the internet safely

We're dedicated to helping you navigate the world of online parenting

Our children are growing up online accessing games, social networks and apps through a range of different devices

CEOP, the National Crime Agency's child protection command, is working in partnership with Visa to inform parents about online safety

# 1 million

...parents have now received face-to-face online safety awareness sessions and can keep their children safer online

And one million parents now know more about:

The sites, apps and devices their children are using

How to report anything of concern

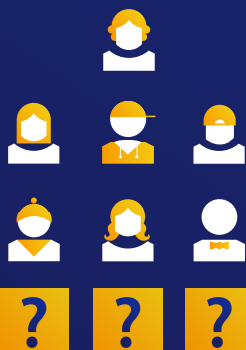

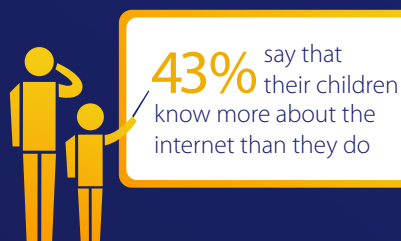

How to reduce the risks their children face online

And where to go for further advice and support

It's important for us to continue to help...

The average 12-15 year old has never met **3 in 10** of the friends listed on their main social networking profile
