

Be part of the St Joseph's Online Learning TEAM

Did you know, research suggests that students who engage in the learning process outside of the classroom will benefit from, on average, five months' additional progress?

At St Joseph's, we want you to achieve the best you can and reach your full potential and to do this you need to engage in the learning process both inside and outside of the classroom.

The best way to make progress is to use **TEAMS** to enhance the learning in the classroom – and in these strange times, home learning has never been more important!

TEAMS Top Trumps!

Every night, we expect you to be logging onto **TEAMS** and doing one of the following:

1. Complete a HW task on TEAMS (check the HW timetable and Classcharts for reminders)
2. Complete some home learning/revision on a subject you really enjoy
3. Complete some home learning/revision on a subject you know you need to improve/develop

TEAMS top tips:

- **TEAMS** is our online learning platform so to develop revision skills, catch up in missed work or to contact your teachers with any learning questions you have.
- Year group **TEAMS** will be used to share important information, remind students of key events and a place to celebrate success and achievements.
- **TEAMS** will be used for Miss Kennedy and other staff to deliver key messages.

By joining the St Joseph's learning **TEAM**, you will be giving yourself the best opportunity to make progress, get online support from your teachers and develop independent learning skills.

Email communication:

A reminder about the etiquette when sending an email to your teachers:

1. Put the purpose of your email in the subject box (*eg- Question about my RYG work*)
2. Address your teacher in a polite and formal manner (*eg – Dear Miss Kennedy*)
3. Write in full sentences and explain clearly why you are emailing.
4. End the email in a polite manner (*eg – thank you Miss Kennedy for your help*)
5. Sign off with your name.
